About me

About me
Hi, my name is Paweł. I'm a IT student. As long as I remember technology had a special place in my interests. I love to watch developing potential of devices near us and how slowly, but systematically they become inseparable elements of our lives. Smartphones, SmartTVs, Smart-Refrigerators and all SmartWearable are just few examples of that phenomena and my reaction for all of that was "I need to be a part of that process!". Not only as passive consumer, but as co-creator of modern world where everything is connected. I also invite you to my created in Next.js website technology: <https://pp-portfolio.vercel.app/> . Its repositories are available on my GitHub.
